JUICE

## COMPAC JUICE DISPENSERS

Compac Dispensers are ideal for front of house locations, where you need a unit that is both aesthetically pleasing and easy to use. With a lightweight and compact design they can be used anywhere from the breakfast room at a hotel to counter tops in motorway service stations.

The Compac range are available for 2 or 3 products, environmentally friendly and utilise precision technologies to reduce waste and save on storage space.

The Compac 2 was designed exclusively for Krogab with our partners in Germany to produce a unique dispenser for use with our Bag in Box Juices. The Compac 2 has the option of two juice selections and a separate button to dispense chilled water. Utilising state of the art technologies encompassing high performance cooling equipment to deliver the perfect glass of delicious juice at the touch of a button.
