

INSTANT COFFEE MACHINES

The growth in sales of hot drinks shows no sign of slowing down and customers are demanding an increased range of options delivered at high speed. If you are looking for a no nonsense solution that is easy to clean and maintain then an Instant Coffee Machine could fit the bill. These cutting edge machines are able to deliver high quality beverages time after time, in large volumes, with no compromise on flavour.

Krogab Café have a comprehensive range of compact, table top machines that combine stunning design with proven, robust technology – including the Vitro S1 & S2 Instant & Vitro S4 FBT. Finished in smoked glass with angular design and chrome finish, all three machines have a contemporary feel, perfect for today's modern workplace, dining area or café vend.

VITRO S2 INSTANT

The Vitro S2 Instant is a modern sleek, table top beverage machine with a three/four canister dispense system. It has an all soluble configuration featuring two coffees, chocolate and milk as standard, with the ability to substitute sugar or other soluble products as required. The Vitro range now incorporates updated control technology, with advanced features such as an intuitive USB interface and flexible drink programming. A Go-Large option is also available providing two cup levels at the push of a button.
